

98. Glass-Technology Conference

26-28 May 2025
Der Achtermann, Goslar

SUBMISSION
DEADLINE
20.12.2024

Call for Papers

Join Europe's premier glass conference by Deutsche Glastechnische Gesellschaft (DGG) in Goslar. Our conferences offer a platform to spotlight advancements and innovations in glass science and technology.

We warmly invite contributions from the global community of researchers, scientists, engineers, industry professionals, and leaders to enrich the content and discussions of this esteemed event.

Session 1: Relaxation, Glass Transition, and Structure of Glasses

Session 2: Volume and Surface Properties of Glasses and their Characterisation

Session 3: Glass Applications and Application related Challenges

Session 4: Computer Simulations, AI, and Machine Learning in Glass Research and Production

Session 5: Industrial Glass Melting, Recycling and Raw Materials*

Session 6: Glass Forming, Post-Processing and Quality Control*

Session 7: Additive Manufacturing and New Processing Techniques of Glasses*

*The contributions in these sessions can also be held in German. They will be presented in German-language sessions and merged into a German-language strand if demand is high.

**Conference President
